Education

K L University

B.Tech in Computer Science and Engineering – 9.09 CGPA

Aug 2024 – May 2028

Vaddeswaram, AP

Projects

CertifyMe – Certification Tracking Platform | Spring Boot, ReactJS, PostgreSQL, REST APIs Feb 2026 – Present

- Built and deployed a production-ready full-stack platform used for certification tracking and approval workflows for 4000+ students.
- Designed scalable backend architecture using Spring Boot, Hibernate, and REST APIs for certificate validation and admin monitoring.
- Implemented role-based workflows for students, faculty, and administrators with real-time certification status updates.
- Integrated PostgreSQL database with optimized queries for reporting, approval pipelines, and dashboard performance.
- Developed responsive frontend using ReactJS for efficient certificate submission and tracking.
- Live: certifymeonline.vercel.app | GitHub: Repository

ManageYour Project – Project Management Portal | Node.js, ReactJS, PostgreSQL, REST APIs Nov 2025 – Present

- Built a project submission and evaluation platform for students and faculty with optimized end-to-end workflow management.
- Developed optimized backend APIs for project submission, approval status, mentor review, and evaluation tracking.
- Designed structured database workflows for project records, faculty assignments, and submission history.
- Created responsive frontend using ReactJS for project uploads, reviews, and academic progress monitoring.
- Live: manageyourproject.vercel.app | GitHub: Repository

Developer Portfolio Website | ReactJS, Tailwind CSS, Motion

2026

- Designed and developed a modern personal portfolio showcasing projects, technical skills, certifications, and backend engineering work.
- Focused on production-level UI/UX, recruiter-friendly project presentation, and strong GitHub + deployment visibility.
- Integrated live project demos, resume access, and professional branding for internship and placement opportunities.
- Live: lalithdevportfolio.vercel.app | GitHub: Repository

Skills Summary

Profile: Built production-ready backend systems using Spring Boot, Node.js, PostgreSQL, and REST APIs for scalable workflow automation.

Languages: Python, Java, JavaScript, SQL, C

Backend Development: Spring Boot, Node.js, REST APIs, Hibernate, PostgreSQL, MySQL

Frontend Development: ReactJS, HTML, CSS, Tailwind CSS

Cloud & Tools: AWS (EC2, S3 Basics), Oracle Cloud Infrastructure, Git/GitHub, Docker Basics

Core Concepts: Data Structures & Algorithms, OOP, Operating Systems, DBMS, System Design Basics

Async Systems: Background Jobs, Async Processing, Queue Systems, API Optimization

AI Exposure: Oracle OCI Generative AI, LLM Basics, LangChain (Beginner)

Development Practices: Agile Development, CI/CD Basics, API Design, Problem Solving

Certifications

Oracle Cloud Infrastructure 2025 Certified Generative AI Professional

Oct 2025

Oracle

Oracle Cloud Infrastructure 2025 Certified Data Science Professional

Sep 2025

Oracle

Coding Profiles

- Solved 400+ problems across LeetCode, HackerRank, and CodeChef with strong focus on DSA and backend problem solving.
