Education

K L University

Aug. 2024 - May 2028

B.Tech in Computer Science and Engineering - 9.09 CGPA

Vaddeswaram, AP

Projects

Certification Tracking Platform | JavaScript, ReactJS, Spring Boot | GitHub

Feb 2026 – Present

- Built a full-stack web platform enabling students to track certifications and administrators to monitor progress.
- Implemented backend services using Spring Boot and Hibernate for managing certification records.
- Designed a responsive ReactJS frontend to enable efficient certificate tracking and monitoring.
- Integrated SQL database for storing certification records and enabling real-time updates.

Project Management Portal | ReactJS, Node.js | GitHub

Nov 2025

- Developed a web portal for students to submit projects and teachers to evaluate submissions.
- Built a responsive user interface using ReactJS for submission and evaluation workflows.
- Implemented backend APIs using Node.js to manage project submissions, evaluation status, and database updates.

Skills Summary

Programming Languages: Java, C, Python, JavaScript, SQL

Web Development: ReactJS, Node.js, Spring Boot, HTML, CSS

Databases: MySQL, PostgreSQL

Cloud Technologies: AWS (EC2, S3 Basics), Oracle Cloud Infrastructure

Developer Tools: Git/GitHub, VS Code, Eclipse

Development Practices: CI/CD Basics, Agile Development, REST APIs

Relevant Coursework: Data Structures, OOPs, Database Management Systems, Operating Systems

Soft Skills: Problem Solving, Analytical Thinking, Teamwork, Leadership

Certifications

Oracle Cloud Infrastructure 2025 Certified Generative AI Professional

Oct. 2025

Oracle

Oracle Cloud Infrastructure 2025 Certified Data Science Professional

Sep. 2025

Oracle

Software Engineer Intern Certification

Sep. 2025

HackerRank

Leadership & Activities

Code4Change Hackathon

KL University

- Participated in Code4Change 2025, a national-level hackathon at KL University, leading a team to develop innovative technology solutions for real-world challenges.

Social Internship – Agriculture Domain

KL University

- Analyzed water utilization challenges in agriculture and explored potential technology-driven solutions through field visits and farmer interactions.

Smoke Detection and Fire Alarm System (IoT)

Internet of Things

- Developed an IoT-based system to detect smoke and trigger safety alerts for fire prevention.

Smart Irrigation System

Design Thinking and Innovation

- Designed an innovative irrigation concept focusing on sustainable water usage and efficient agricultural practices.
