Education

K L University

Aug. 2024 - May 2028

B.Tech in Computer Science and Engineering - 9.09 CGPA

Vaddeswaram, AP

Projects

CertifyMe – Certification Tracking Platform | *Spring Boot, ReactJS, PostgreSQL, REST APIs*

Live Demo | GitHub

Feb 2026 – Present

- Built and deployed a production-ready full-stack platform used for certification tracking and approval workflows for 4000+ students.
- Designed scalable backend architecture using Spring Boot, Hibernate, and REST APIs for certificate validation and admin monitoring.
- Implemented role-based workflows for students, faculty, and administrators with real-time certification status updates.
- Integrated PostgreSQL database with optimized queries for reporting, approval pipelines, and dashboard performance.
- Developed responsive frontend using ReactJS for efficient certificate submission and tracking.

ManageYour Project – Project Management Portal | *Node.js, ReactJS, PostgreSQL, REST APIs*

Live Demo | GitHub

Nov 2025 – Present

- Built a project submission and evaluation platform for students and faculty with end-to-end workflow management.
- Developed backend APIs for project submission, approval status, mentor review, and evaluation tracking.
- Designed structured database workflows for project records, faculty assignments, and submission history.
- Created responsive frontend using ReactJS for project uploads, reviews, and academic progress monitoring.

Developer Portfolio Website | *ReactJS, Tailwind CSS, Motion*

Live Demo | GitHub

2026

- Designed and developed a modern personal portfolio showcasing projects, technical skills, certifications, and backend engineering work.
- Focused on production-level UI/UX, recruiter-friendly project presentation, and strong GitHub + deployment visibility.
- Integrated live project demos, resume access, and professional branding for internship and placement opportunities.

Skills Summary

Languages: Java, C, Python, JavaScript, SQL

Web Development: ReactJS, Node.js, Spring Boot, HTML, CSS

Databases: MySQL, PostgreSQL

Cloud Technologies: AWS (EC2, S3 Basics), Oracle Cloud Infrastructure

Developer Tools: Git/GitHub, VS Code, Eclipse

Development Practices: CI/CD Basics, Agile Development, REST APIs

Core Concepts: Data Structures & Algorithms, OOP, Operating Systems

Soft Skills: Problem Solving, Analytical Thinking, Teamwork, Leadership

Certifications

Oracle Cloud Infrastructure 2025 Certified Generative AI Professional

Oct. 2025

Oracle

Oracle Cloud Infrastructure 2025 Certified Data Science Professional

Sep. 2025

Oracle

Software Engineer Intern

Sep. 2025

HackerRank

Leadership & Activities

Code4Change Hackathon

2025

KL University

- Participated in Code4Change 2025, a national-level hackathon at KL University, where our team built a Patient Appointment Scheduling System to improve hospital appointment management and reduce waiting time.
- Focused on designing efficient workflows for patient booking, doctor availability tracking, and appointment status management.
- Worked on building practical healthcare solutions by combining problem-solving, teamwork, and real-world system thinking.

Ideathon 2026

Apr 2026

ACIC-KL Startups Foundation, KL University

- Participated in Ideathon 2026 organized by ACIC-KL Startups Foundation, supported by NITI Aayog and Atal Innovation Mission.
- Worked with a team on a traffic management solution focused on solving real-world congestion and road safety challenges.
- Presented the idea before mentors, received valuable technical feedback, and refined the solution under strict time constraints.
- Strengthened problem-solving, teamwork, and practical innovation skills through rapid idea execution.

Social Internship – Agriculture Domain

KL University

- Analyzed water utilization challenges in agriculture and explored potential technology-driven solutions through field visits and farmer interactions.

Smoke Detection and Fire Alarm System (IoT)

Internet of Things

- Developed an IoT-based system to detect smoke and trigger safety alerts for fire prevention.

Smart Irrigation System

Design Thinking and Innovation

- Designed an innovative irrigation concept focusing on sustainable water usage and efficient agricultural practices.
